DEA provides education and training opportunities to eligible dependents of veterans who are permanently and totally disabled due to a service-related condition, or who died while on active duty or as a result of a service related condition. The program offers up to 45 months of education benefits. These benefits may be used for degree and certificate programs, apprenticeship, and on-the-job training. If you are a spouse, you may take a correspondence course. Remedial, deficiency, and refresher courses may be approved under certain circumstances.

**Special Restorative Training** is available to persons eligible for DEA benefits. The Department of Veterans Affairs may prescribe special restorative training where needed to overcome or lessen the effects of a physical or mental disability for the purpose of enabling an eligible person to pursue a program of education, special vocational program or other appropriate goal. Medical care and treatment or psychiatric treatment are not included. Contact your local VA office for more information.

**Special Vocational Training** is also available to persons eligible for DEA benefits. This type of program may be approved for an eligible person who is not in need of Special Restorative Training, but who requires such a program because of a mental or physical handicap. Contact your local VA office for more information.
