# Purpose and Overview

## Purpose of VBA's Annual Benefits Report

The Annual Benefits Report (ABR) summarizes the benefit programs delivered by VBA, identifies the current level of program participation, and profiles the beneficiaries. The report is intended to accomplish the following:

- Present a clear, complete, data-driven picture of the extent to which Veterans and their dependents use these benefits, and
- Provide insights into the nature of the benefit programs.

A complete discussion of VBA's performance in administering these programs is contained in the Department's FY 2023 / FY 2021 Annual Performance Plan and Report (APP&R). The document brings together results from past years and program goals and objectives, and can be accessed through this electronic link:

<https://www.va.gov/performance/>.

The VA Strategic Plan FY 2022 – 2028 can be found on the Department's Web site:

## Veterans Benefits Overview

The Veterans Benefits Administration is one of three administrations comprising the Department of Veterans Affairs. VBA is responsible for administering and delivering an array of federally authorized benefits and services to eligible Veterans and their dependents and survivors. With annual expenditures of \$154 billion<sup>1</sup> during fiscal year 2022, VBA programs have a sweeping impact not only on the Veteran community, but also on the whole of American society. These are programs that touch millions of lives in fundamental ways. Benefits and services administered by VBA fall under seven major program areas: Compensation, Pension and Fiduciary, Education, Insurance, Home Loan Guaranty, Veteran Readiness and Employment, and Outreach, Transition and Economic Development. To administer these programs, VBA spent approximately \$3.0 billion during fiscal year 2022.

# FY2022 Program Summary

## Compensation

**\$120.7 Billion Paid | 5.9 Million Recipients**

Compensation provides tax-free monthly benefits in recognition of the effects of disabilities caused by diseases, events, or injuries incurred or aggravated during active military service. The program also provides monthly payments to surviving spouses, dependent children, and dependent parents in recognition of the economic loss caused by the death of individuals during their military service or as a result of service-connected disability after their discharge.

## Home Loan Guaranty

**\$256.6 Billion in Loans | 746,091 Loans**

The VA home Loan Guaranty program provides help to eligible Veterans, active-duty personnel, surviving spouses, and members of the Reserves and National guard to purchase, retain, and adapt homes.

## Pension & Fiduciary

**\$3.6 Billion Paid | 299,709 Recipients**

Pension is a needs-based benefit designed to provide certain wartime Veterans and their survivors with a minimum level of income that raises their standard of living. Wartime Veterans who are age 65 or older or have a permanent and total non-service connected disability, and who have limited income and net worth may be eligible. The Fiduciary program provides oversight for VA's most vulnerable beneficiaries who are unable to manage their own VA benefits.

## Veteran Readiness & Employment

**\$1.5 Billion Paid | 124,437 Participants**

The Veteran Readiness & Employment program provides comprehensive services and assistance necessary to enable Veterans with service-connected disabilities and an employment handicap to obtain stable and suitable employment. It also assists Veterans to achieve maximum independence in daily living when the severity of their disability prohibits suitable employment.

## Education

**\$9.9 Billion Paid | 834,460 Recipients**

VA Education program provides Veterans, Servicemembers, reservists, and certain family members of Veterans with educational resources to supplement opportunities missed because of military service. These programs are also meant to help the Armed Forces both recruit and retrain members.

## Outreach, Transition and Economic Development

**68,847 Events | 285,927 Attendees**

Outreach, Transition and Economic Development eases Veterans transition from military service to civilian life. The programs engage transitioning Servicemembers, Veterans, their families and caregivers at each step of their transition journey. The programs provide early access to VA benefits and resources by connecting them to a network of partners who are working together to accelerate their economic empowerment and well-being.

## Insurance

**\$2.0 Billion Paid | 5.6 Million Policies**

The program provides Servicemembers and their families with universal available life insurance and traumatic injury protection insurance. Servicemembers may also convert their Group Life Insurance to a renewable term insurance policy after separation. The program provides life insurance to Veterans who have lost their ability to purchase commercial insurance at standard healthy rates due to lost or impaired insurability resulting from military service.

## Service-Connected Disability or Death Benefits

The Compensation program provides tax-free monthly benefits to Veterans in recognition of the effects of disabilities caused by diseases, events, or injuries incurred or aggravated during active military service. The program also provides monthly payments to surviving spouses, dependent children, and dependent parents in recognition of the economic loss caused by the death of individuals during their military service or as a result of service-connected disability after their discharge.

To be eligible for disability compensation, the Veteran must have served under conditions other than dishonorable, and the disability must not be the result of the Veteran's own misconduct. VA pays disability compensation monthly, and the amount varies according to the degree of disability and the number of dependents. The degree of disability varies from 0 percent to 100 percent, in increments of 10 percent. VA calculates the total service-connected disability by combining evaluations for individual disabilities rather than adding them. VA pays additional special monthly compensation when severe disabilities confine Veterans to their immediate premises, require the aid and assistance of others, or include anatomical loss or loss of use of extremities or creative organs.

A note on the data:

The 2022 Annual Benefits Report is based on data from the VBA corporate database.

The availability of gender and age data is limited, as some records are listed as "unknown." Those records are accounted for in the totals for each table, but not in the category columns. Please see footnotes for additional information.

All Veterans counted in this section are receiving compensation benefit payments as of Sept. 30, 2022. The category of 0 percent indicates payment due to special monthly compensation or two or more permanent 0-percent service-connected disabilities which clearly interfere with normal employability. Veterans with a 0 percent combined degree of disability not receiving payment are not counted in this section.

Please see the section:

"The Presentation of FY 2022 Compensation Data" on page [71](#) for important information on the color coding of the data tables.

Dependency and Indemnity Compensation data are found beginning on page [116](#).

## The Presentation of FY 2022 Compensation Data

### New to the rolls

Individuals who began receiving benefits during fiscal year 2022 (October 1, 2021 to September 30, 2022) are considered “New to the rolls,” and the tables are outlined in blue.

### On the rolls

All individuals receiving benefits on September 30, 2022 are considered “On the rolls” and the tables are outlined in green.

These tables include “New to the rolls” recipients.

Please note the difference between counts of Veterans and counts of disabilities. A Veteran may be receiving benefits based on one or more disabilities, which is why numbers of disabilities are much higher than numbers of Veterans. Counts of disabilities are indicated by the section title and table header and begin on page [93](#).

Data regarding payments do not reflect actual amounts paid by VA. This document only addresses monthly benefit payments and does not include retroactive payments. Also, estimated average annual individual payments for the same combined degree differ slightly due to additional payments for dependents and/or special monthly compensation. Also, all payment information is annual unless stated otherwise. Please refer to the official budget internet site here <https://www.va.gov/budget> for actual amounts paid by VA.

This document counts all Veterans with 0-percent combined disability as long as they receive payment for special monthly compensation or a 10-percent rate because they have two or more separate permanent 0-percent service-connected disabilities which clearly interfere with normal employability. This document does not count Veterans with 0-percent combined disabilities who are not receiving payment of any kind.

VA has incorporated Global War on Terror (GWOT) data to the main data tables as a subset of the Gulf War era (GW) period of service. Since September 11, 2001, the Department of Defense has deployed personnel overseas in support of GWOT, including Operation Iraqi Freedom/Operation Enduring Freedom/Operation New Dawn (OIF/OEF/OND). For more information, see pages [75](#), [88](#) through [92](#), and [110](#) through [115](#).

VBA’s computer systems do not contain data that would allow us to attribute Veterans’ disabilities to specific periods of service or deployment. Therefore, GWOT is a subset that includes Veterans who filed disability compensation claims at some point either prior to or following their GWOT deployment. VBA is not able to identify which of these Veterans filed a claim for disabilities incurred during their actual overseas GWOT deployment.

The Office of Performance Analysis and Integrity is available to answer questions regarding the data contained in this report by email at [PAI.VBACO@va.gov](mailto:PAI.VBACO@va.gov).

## Regarding Service-Connected Disability Data

The tables on the following pages present information on the number of service-connected disabilities, as opposed to the number of Veterans with those disability evaluations.

Tables labeled “Number of SC disabilities of new compensation recipients” display counts of service-connected disabilities which VBA rated for new recipients during FY 2022. Tables labeled “Number of SC disabilities of all compensation recipients” display counts of all rated service-connected disabilities for all Veterans receiving compensation at the end of FY 2022.

VBA has abbreviated the names of the body systems to allow for a clearer presentation of the information. The three body systems with the greatest changes in terminology are:

- “Organs of special sense” abbreviated to: “The Eye”
- “Infectious Diseases, Immune Disorders, and Nutritional Deficiencies” abbreviated to: “Infection/Immune/Nutrition”
- “Neurological Conditions and Convulsive Disorders” abbreviated to: “Neurological”

Any use of the term “disabilities” in the following section includes service-connected disabilities only.

## Most Prevalent SC Disabilities – by Disability Type

The disabilities listed on pages [103](#) through [105](#) are grouped by one of over 900 individual disability codes. Disability types in the table below with a <sup>43</sup> footnote are groups of these codes based on the general disability type or condition. VBA created these groups to show more clearly the most prevalent types of disabilities which affect Veterans.

For example: on page [103](#) under Musculoskeletal Disabilities, only the top 30.4% are listed and two of them are related to limited motion. The table below lists the top 77.5% of Musculoskeletal disabilities, grouping all limitation-of-motion disabilities regardless of body part affected.

## GWOT Most Prevalent SC Disabilities by Gender

VA's computer systems do not contain data that would allow us to attribute Veterans' disabilities to a specific period of service or deployment. Therefore, GWOT is a subset defined by Veterans who filed a disability compensation claim at some point either prior to or following their GWOT deployment. VA cannot identify which of these Veterans filed claims for disabilities incurred during their actual overseas GWOT deployment.

## Dependency and Indemnity Compensation (DIC)

DIC is a tax-free monetary benefit generally payable to a surviving spouse, child, or parent of Servicemembers who died while on active duty, active duty for training, or inactive duty training; or to survivors of Veterans who died from their service-connected disabilities; or to certain survivors of Veterans who were totally disabled due to service-connected causes at the time of their death. Parents' DIC is an income-based benefit for parents who were financially dependent on a Servicemember or Veteran who died from a service-related cause.

# Pension & Fiduciary

## Veterans Non-Service-Connected Pension and Survivors Pension

Pension is a needs-based benefit designed to provide certain wartime Veterans and their survivors with a minimum level of income that raises their standard of living.

Wartime Veterans who are age 65 or older or have a permanent and total non-service-connected disability, and who have limited income and net worth may be eligible. Veterans who are more seriously disabled may qualify for pension at the increased housebound or aid and attendance (A&A) rates. Surviving spouses and dependent children of deceased wartime Veterans are eligible for monthly pension benefits if they meet the net worth and income requirements.

## The Fiduciary Program

The Fiduciary program provides oversight for VA's most vulnerable beneficiaries who are unable to manage their own VA benefits. Upon appointment by VA, a fiduciary is authorized to receive direct payment of a beneficiary's VA benefits and to disburse funds to creditors and the beneficiary according to the best interests of the beneficiary.

**The availability of gender and age data is limited as some records have no gender or birthdate available. Those records are accounted for in the totals for each table but not in the category columns. Please see footnotes for additional information.**

**The Old Law Pension Program and Section 306 Pension Program are closed to new applicants. The term "Other Pension" is used to reference them.**

**Please see the section on page [126](#): "A Note on How the FY 2022 Pension Data is Presented" for important information on the color coding of the data tables.**

**Data regarding the fiduciaries of Veterans and survivors receiving VA benefit payments are stored in the Beneficiary Fiduciary Field System (BFFS) while data regarding claims, benefit types and award amounts for fiduciary related records are stored in the VBA corporate database.**

## A Note on How the FY 2022 Pension Data is Presented

### New to the Rolls

Individuals who began receiving pension during fiscal year 2022 (October 1, 2021 to September 30, 2022) are considered “new to the rolls” and the tables are outlined in purple.

### On the Rolls

All individuals who are receiving pension on September 30, 2022 are considered “on the rolls” and are outlined in tan/yellow. These tables include “new to the rolls” recipients.

The Office of Performance Analysis and Integrity is available to answer questions regarding the data contained in this report by email at PAI.VBACO@va.gov.

## Pension Programs

### Pension Benefits for Veterans

Wartime Veterans who meet one or more of the following basic eligibility criteria may be entitled to pension benefits:

- Permanent and total disability from non-service-connected causes. Veterans are considered permanently and totally disabled if they are:
  - A patient in a nursing home, or
  - In receipt of Social Security disability benefits, or
  - Unemployable due to disability as determined by VA.
- 65 years of age or older

Entitlement is subject to income and net worth limitations. Additional amounts may be paid to Veterans who have dependents or who, due to disability, are in need of the aid and attendance (A&A) of another person or are housebound.

### Pension Benefits for Surviving Spouses

Surviving spouses of wartime Veterans have basic eligibility for survivors' pension if they meet the income and net worth limitations. Additional amounts may be paid to surviving spouses who have dependents or who, due to disability, are in need of A&A of another person or are housebound.

### Pension Benefits for Surviving Children

Surviving children of wartime Veterans have basic eligibility for survivors' pension if they meet income and net worth limitations and are:

- Unmarried, and
  - Under the age of 18 years, or
  - Between the age of 18 and 23 years and attending an accredited school, or
  - Became permanently incapable of self-support prior to reaching 18 years of age.

## Special Monthly Pension: Aid and Attendance and Housebound

Veterans and survivors who need the A&A of another person or are housebound may be eligible for additional amounts of pension called special monthly pension. Because pension at the A&A and housebound rates is based upon a higher income limit, claimants ineligible for basic pension due to excessive income may be eligible for pension benefits if they are determined to need A&A or are housebound.

### Aid and Attendance (A&A)

- Veterans or surviving spouses may be eligible for pension at the A&A rate if:
  - They require the assistance of another person in order to perform activities of daily living, such as bathing, feeding, dressing, toileting, adjusting prosthetic devices, or protecting themselves from the hazards of their daily environment,  
or
  - They are bedridden, in that their disability or disabilities require that they remain in bed apart from any prescribed course of convalescence or treatment,  
or
  - They are a patient in a nursing home due to mental or physical incapacity,  
or
  - They have corrected visual acuity of 5/200 or less in both eyes, or concentric contraction of the visual field to 5 degrees or less.

### Housebound

- Veterans may be eligible for pension at the housebound rate if:
  - They have a single permanent disability evaluated as 100-percent disabling and,  
or
  - Due to a disability or disabilities, they are permanently and substantially confined to their immediate premises,  
or
  - They have a single permanent disability evaluated as 100-percent disabling and another disability or disabilities, independently evaluated as 60-percent or more disabling.
- Surviving spouses may be eligible for pension at the housebound rate if disability or disabilities permanently and substantially confine them to their immediate premises.

### Old Law and Section 306 Pension

Old Law and Section 306 Pension for Veterans and their surviving spouses and children use laws and regulations different from the current pension program to determine entitlement and the amount of monthly benefits. VA does not accept any new applications for benefits under these older programs. If a beneficiary loses entitlement to Old Law or Section 306 Pension due to changes in circumstances (for example, a change in income), the beneficiary must establish entitlement under the rules of the current Veterans pension or survivors pension program.

## Tuition Assistance Top-Up Program

The Tuition Assistance Top-Up (TATU) program is available under the Post-9/11 and MGIB-AD program. TATU permits VA to issue a payment to an individual for the difference between the military service's tuition assistance payment amount and the total cost of tuition and related expenses, up to the amount that a Veteran would receive. An individual must receive military tuition assistance for the course to be eligible for TATU payments. There was a 20 percent decrease in the number of unique trainees in fiscal year 2022 compared to fiscal year 2021.

## License and Certification Test Reimbursement

Under all active education programs beneficiaries may receive reimbursement of the cost of taking an approved test for an occupational license or certification. VA pays for the cost of the test, up to a maximum of \$2,000 per test. There was a 12 percent increase in the number of unique trainees in fiscal year 2022 compared to fiscal year 2021.

## Accelerated Payments Program

Accelerated payments are available under the MGIB-AD, MGIB-SR, and REAP programs and may be made for certain high cost, high-tech programs for enrollment on or after October 1, 2002. To qualify, a beneficiary must be enrolled in a high-tech program and must certify that he/she intends to seek employment in a high-tech industry as defined by VA. The beneficiary may receive a lump-sum payment of 60 percent of the total charges if the cost of tuition and fees exceeds 200 percent of what they would otherwise receive in education assistance. There was a 50 percent increase in the participants under this program in fiscal year 2022 compared to fiscal year 2021.

## Transfer of Post-9/11 GI Bill Benefits and Fry Scholarship

The Post-9/11 GI Bill allows those eligible for the program to transfer their educational benefits to one or more dependents if they meet Department of Defense eligibility criteria. During fiscal year 2022, there were 118,015 beneficiaries who received transferred benefits from a Service member or Veteran. Of those 93,669 were children while 24,346 were spouses. These beneficiaries are included under Post-9/11 totals on previous pages.

Congress passed Public Law 111-32 that amended the Post-9/11 GI Bill, which established the Marine Gunnery Sergeant John David Fry Scholarship (Fry Scholarship). Children of an active-duty member of the Armed Forces who dies in the line of duty on or after September 11, 2001, are eligible for this benefit. A child may be married or over 23 and still be eligible. During fiscal year 2022, 3,304 children received Post-9/11 GI Bill benefits under the Fry Scholarship.

Congress passed Public Law 113-146 that amended the Post-9/11 GI Bill, which expanded the Marine Gunnery Sergeant John David Fry Scholarship (Fry Scholarship). Spouses of an active-duty member of the Armed Forces who dies in the line of duty on or after September 11, 2001, are eligible for this benefit. During fiscal year 2022, 794 spouses received Post-9/11 GI Bill benefits under the Fry Scholarship.

## Veterans Life Insurance Programs

The Veterans Benefits Administration (VBA) provides Service members and their families with universally available group term life insurance, as well as traumatic injury protection insurance for Service members. Service members may also convert their Servicemembers' Group Life Insurance (SGLI) to a renewable term insurance policy through the Veterans Group Life Insurance program, or a permanent, individual insurance policy after separating from service. In addition, VBA's Life Insurance Programs provide life insurance to Veterans who have lost their ability to purchase commercial insurance at standard healthy rates due to lost or impaired insurability resulting from service.

VBA's insurance benefits fall into three categories:

- Closed Life Insurance Programs
- Disabled Veterans Insurance Programs
- Uniformed Services and Post-Vietnam Veteran Programs

A detailed description of each program is on page [168](#).

VA life insurance provides \$1.2 trillion in coverage to 5.6 million Service members, Veterans, and their families.

Veterans have up to 240 days following their separation from the military to apply for Veterans' Group Life Insurance (VGLI) without the need to prove that they are in good health for insurance purposes. This is a critical opportunity for seriously ill or injured Service members to purchase affordable life insurance coverage.

## Three Categories of Benefit Programs

### Closed Life Insurance Programs

When VA offered these programs during prior military conflict periods, policyholders received the same or better life insurance benefits than were available to private citizens. These life insurance programs no longer issue new coverage, but VA continues to maintain active policies and provides a range of benefits. These programs include United States Government Life Insurance (USGLI), National Service Life Insurance (NSLI), Veterans' Special Life Insurance (VSLI), and Veterans' Reopened Insurance (VRI).

### Disabled Veterans Insurance Programs

These programs provide insurance coverage and services to Veterans who lose their ability to purchase commercial insurance at standard healthy rates because of their service-connected disabilities. These programs continue to issue coverage and include Service-Disabled Veterans' Insurance (S-DVI) and Veterans' Mortgage Life Insurance (VMLI). Starting on January 1, 2023, the Veterans Affairs Life Insurance (VALife) program, a new guaranteed acceptance whole life program, will replace the S-DVI program. The S-DVI program will close to new insureds on December 31, 2022.

### Uniformed Services and Post-Vietnam Veterans

These programs provide current and former active duty and reserve members of the uniformed services with group term insurance coverage and services that large-scale civilian employers commonly provide. These programs include Servicemembers' Group Life Insurance (SGLI), Family Servicemembers' Group Life Insurance (FSGLI), Servicemembers' Group Life Insurance Traumatic Injury Protection (TSGLI), and Veterans' Group Life Insurance (VGLI). All Service members who have SGLI are automatically covered under TSGLI and have their dependent children automatically covered for \$10,000 of FSGLI.

## VA Insurance Program Enhancements

### VALife Rulemaking

On July 14, 2022, VA published the National Service Life Insurance (NSLI) Veterans Affairs Life Insurance (VALife) proposed rulemaking in the Federal Register. VA provided the public with 60 days to comment on the proposed rulemaking, and the comment period ended on September 12, 2022. The rule proposes to amend the regulations that govern NSLI to implement provisions contained in legislation that authorized a new program of insurance, clarify which individuals are eligible to take actions on an insurance policy, explain various provisions regarding coverage and benefits under the new insurance program, and state which individuals are ineligible to benefit from the unlawful and wrongful killing of a Veteran policyholder.

## Electronic Signature (Docu-Sign)

In February 2022 VA Insurance Service implemented electronic signature capabilities for VA-Form 29-4125, Life Insurance Claim for One Sum Payment, providing convenience and streamlined submission for our customers. Since go-live of the Docu-Sign enabled VA-Form 29-4125 VA Insurance Service has received 5,853 electronically signed documents, which is 10.9% of the total applications received during this timeframe.

In general, VA pays death claims to a Service members' or Veterans' designated beneficiary upon the death of the insured person. In the case of FSGLI, VA pays spousal or dependent child death claim benefits to the Service member. In the case of VMLI, VA pays death claims directly to the mortgage lender.

The table below provides a distribution of death payments by program. For TSGLI, payments are for qualifying traumatic injuries.

## Monthly Payments to Policyholders at the End of FY 2022

Although most Veterans choose to receive payments in a lump sum, a monthly payment option is available for certain policy benefits, such as, cash surrenders and matured endowments. In the two disability benefit provisions of policies – total and permanent disability and total disability income – no lump sum option exists; VA pays monthly.

The table below provides data on recurring monthly payments to Veterans.

# Loan Guaranty

## Home Loan Guaranty Program Objectives

The objective of the VA Home Loan Guaranty program is to help eligible Veterans, active-duty personnel, surviving spouses, and members of the Reserves and National Guard purchase, retain, and adapt homes in recognition of their service to the Nation.

## Current Benefits

VA home loans may be used to:

- Purchase a home;
- Purchase a residential unit in certain condominium projects;
- Build a home;
- Refinance an existing home loan; or
- Improve a home by installing solar heating or other energy conservation measures.

746,091 Loans Guaranteed  
 Average Loan \$343,895  
 Total Loan Amount:  
 \$256.6 Billion

The Loan Guaranty Program was originally part of a national effort to move from a wartime economy to a peacetime economy and to avoid the economic recession historically associated with postwar periods. The program was one of the innovations advanced by the Servicemen's Readjustment Act of 1944 (PL 78-346), known as the GI Bill of Rights. By providing loan guaranties, the government could aid Veterans in their efforts to readjust to civilian life.

## Program Information

There are two types of guaranteed loans: purchase and refinance. A purchase loan is used to obtain a home. The other loan type is a refinance, and there are two kinds of refinance loans: interest rate reduction and other refinance (i.e., cash-out refinancing). Interest rate reduction is typically the most common reason for refinancing a loan, however in FY 2022, cash-out refinancing was the most common reason.

After January 1, 2020, most Veterans may obtain no-down payment VA-guaranteed loans that are over \$144,000 in all areas of the country, regardless of home prices.

In most instances, Veterans living in higher-cost markets will no longer be subject to the Federally-established conforming loan limit maximums. The VA county loan limits are adjusted annually each January and are available at [http://www.benefits.va.gov/homeloans/purchaseco\\_loan\\_limits.asp](http://www.benefits.va.gov/homeloans/purchaseco_loan_limits.asp). Veterans with their full entitlement available no longer have a maximum guaranty amount. Veterans with some of their entitlement charged to a previous loan may still obtain a VA-guaranteed loan with their remaining entitlement. The conforming loan limit will establish the maximum loan amount that VA can guaranty in this situation. The lender will likely require a down payment on the portion of the loan that exceeds the amount VA can guaranty. Veterans selling their current home to pay off their current VA-guaranteed loan can have a back-to-back closing and have full entitlement available

Veterans pay a funding fee ranging from 1.4% to 3.60% of the loan amount (0.5% for interest rate reduction refinancing loans). The funding fee can be included in the loan. Veterans receiving VA disability compensation (or who would be receiving compensation, but for the receipt of retirement pay or active service pay) or recipients of a Purple Heart who are currently serving on active duty (who can provide confirmation prior to their loan closing) are exempt from the fee. Also, a surviving spouse of a Veteran who died on active service or later from service-connected causes is exempt from paying the fee.

## Specially Adapted Housing Program (SAH)

Severely disabled Veterans and Service members, primarily those who use a wheelchair or who have lost the use of both arms at or above the elbow, may be entitled to obtain SAH grants.

Special Housing Adaptation (SHA) grants are also available to disabled Veterans and service members who have anatomical loss or loss of use of both hands.

These distinctive programs help eligible individuals buy, build, or modify homes specifically adapted for their use. In addition to no time limitation or deadline for applying for either grant benefit, multiple grant uses are available as authorized under Title 38, United States Code (U.S.C.) section 2101(a) or section 2101(b). The Honoring Veterans and Caring for Camp Lejeune Families Act of 2012 (Public Law 112-154) further expanded the SAH benefit. Specifically, section 202 authorized SAH assistance for certain Veterans who served in the Armed Forces on or after September 11, 2001 and are entitled service-connected disability due to the loss or loss of use of one lower extremity, severely affecting the functions of balance or propulsion.

In August 2020, Public Law 116-154, the “Ryan Kules and Paul Benne Specially Adaptive Housing Improvement Act of 2019” was enacted. This law makes significant changes to the SAH grant program and enhances access to important funding for Veterans with serious and very specific service-connected disabilities.

**Specially adapted housing data can be found at the bottom of page [206](#)**

Some changes to the SAH program under PL 116-154 include:

- Veterans rated with a service-connected blindness disability are eligible for the SAH grant. VA statute reflects that all SAH-qualifying disabilities must be permanent. These changes became effective August 8, 2020.
- The lifetime grant usage is no longer limited to three (3) uses for each individual. Eligible Service members and Veterans are now able to use the grant a total of six (6) times.
- VA is authorized to approve up to 120 grants per year, an increase from the previous statutory limit of 30 per fiscal year for Veterans and Service members who experienced the loss or loss of use of one lower extremity after September 11, 2001.

## Native American Direct Loan (NADL) Program

The Native American Direct Loan Program helps eligible Native American Veterans finance the purchase of homes on Federal Trust Land. VA has entered into memorandums of understanding (MOU) with 110 participating Native American Tribes and Pacific Island territories. During FY 2022, VA closed 40 loans under this program. Since its inception, VA has made 1,205 loans to these Veterans.

In FY22, LGY promoted the NADL program in 38 regional and national outreach events across the United States. VA entered into one MOU during FY22. The NADL program had 520 active loans totaling \$82.9 million and expended over \$11.5 million in loan funding during FY 2022.

Native American Veterans who elect to purchase or refinance a home that is not on Federal Trust Land may use their VA home loan benefits to obtain a VA-guaranteed loan.

## Loan Administration

The Loan Administration Program helps to ensure that Veterans who have VA-guaranteed loans receive assistance during times of temporary financial hardship. VA provides this assistance through oversight of mortgage loan servicers to ensure Veterans are offered options for home retention and alternatives to foreclosure. To ensure every Veteran has the option to retain their home, VA made approximately 534,942 attempts to contact delinquent borrowers and mortgage servicers. In FY 2022, VA helped 205,702 borrowers retain homeownership and/or avoid foreclosure. These actions resulted in a \$3.99 billion savings in estimated foreclosure costs to the Government.

For a Veteran or Service member who may have obtained a conventional loan, VA Loan Technicians can offer general guidance and financial counseling. However, unlike a VA-guaranteed home loan, VA has no legal authority or standing to intervene on the borrower's behalf. VA's toll-free number for all Veterans and Service members to call for home loan assistance is (877) 827-3702.

# Veteran Readiness

## Veteran Readiness and Employment (VR&E)

The VR&E Program operates under the mandate that for those Veterans who are unable to gain or secure employment due to their service-connected disabilities, the Nation they protected has a responsibility to help them build a new career.

VR&E meets this responsibility in a variety of ways.

First, Veterans are assisted in learning more about themselves: their interests, aptitudes, and disability needs. They also gather up-to-date career and labor market information in order to map their path to success.

Specialized counselors work with entitled and enrolled Veterans to design individualized service plans under five tracks of service. Veterans are provided training and services needed to help them achieve their goals. Services provided depend upon the track each Veteran is in:

1. Re-employment
2. Rapid access to employment
3. Self-employment
4. Employment through long-term services
5. Independent living

Nearly 350 locations nationwide, with over 1,500 employees serving Veterans

### Mission:

The Veteran Readiness and Employment (VR&E) program provides comprehensive services and assistance necessary to enable Veterans with service-connected disabilities and an employment handicap to obtain stable and suitable employment. The VR&E program also assists Veterans to achieve maximum independence in daily living when the severity of their disability prohibits suitable employment.

### Activities:

124,437 Veteran Participants

151,804 Veterans Receiving Evaluation and Counseling Services

## Chapter 31 Services

1. **Re-employment:** For Veterans who have recently exited the military and are interested in returning to their previous employer, and for whom their previous job is suitable for their disability, VR&E provides services such as adjustment counseling, disability information and accommodation, and support in contacting their previous employer.
2. **Rapid access to employment:** For Veterans who possess the skills and abilities to obtain suitable employment, VR&E provides short-term training, counseling, job placement, and post-employment support.
3. **Self-employment:** For those Veterans interested in starting their own business, support in this track can include training, assistance with developing a viable business plan, and in certain circumstances, business startup support.
4. **Employment through long-term services:** The majority of Veterans with a disability require long-term support, typically to include college, on-the-job training, or an apprenticeship program. VR&E funds the cost of all tuition, books, fees, and necessary supplies, as well as a monthly subsistence allowance during training. The length of time Veterans are served under the VR&E program varies according to their disability needs, occupational choice, and pre-existing skills and abilities.
5. **Independent living:** For Veterans for whom employment is not currently reasonably feasible, independent living services assist in achieving more independence in their homes and communities.

Once the Veteran and the Vocational Rehabilitation Counselor (VRC) agree on an individualized plan of services, a supportive partnership begins. Throughout their training Veterans receive continued support and advocacy. Once they are ready to begin their new careers, VR&E assists them with job search preparation and placement support.

VR&E participants include all Veterans who were in a rehabilitation plan of service or an extended evaluation plan during FY 2022, including those who were successfully rehabilitated or who discontinued their program of services in FY 2022.

Because Veterans can receive rehabilitation services over multiple years, participants may have started their rehabilitation program in a previous fiscal year.

## Services Provided Through Other Benefit Chapters

Veteran Readiness and Employment also supports other beneficiaries, such as those receiving Dependents Educational Assistance (Chapter 35), Children of Vietnam Veterans born with certain birth defects (Chapter 18), Veterans entitled to services under the Montgomery GI Bill Selected Reserve (Chapter 1606) and the Reserve Educational Assistance Program (Chapter 1607). In 2022, 30 beneficiaries and Veterans applied for services under these benefit chapters.

## Employment Handicaps

Nearly 70 percent of the Veterans participating in the VR&E program have a serious employment handicap. A serious employment handicap means there is significant impairment of a Veteran's ability to prepare for, pursue, or retain employment. Veterans with a serious employment handicap may receive additional supportive services, which may include adaptive equipment, job coaching, and independent living services.

## Beneficiary Payments

For Veterans who require training as part of their rehabilitation services, VR&E pays for tuition, fees, books, and necessary supplies. Veterans who are enrolled in training receive a monthly subsistence allowance to assist them with living expenses.

### FY 22 VR&E appropriations

Obligations	2022 Actual (dollars in thousands)
Subsistence Allowance	\$594,181
Books, Tuition, Supplies, Fees	\$869,002

Non-paid On-the-Job Training	22	0.0%
<b>Total</b>	<b>89,371</b>	

VR&E participants who did not receive subsistence allowance payments during the fiscal year received other forms of rehabilitation services. For example, Veterans who have appropriate training and skills, or who have completed their training, receive job-search assistance and job-accommodation services to transition them into the workforce.

Services include most independent living services, career counseling, medical referrals, and non-training evaluation services such as assistive technology evaluations.

Through outreach and early intervention efforts, some VR&E participants are still on active duty and in the process of separating from the military. VR&E can assist Service members with a disability by providing evaluation, rehabilitation services, training, and case management. Service members are not eligible for subsistence allowance payments until they have completed their separation from the military and are considered a Veteran.

## Transition Assistance Program (TAP)

TAP is an interagency program designed to help Service members have a smooth and successful transition to civilian life. VA, with interagency partners, implements the five-day TAP curriculum, which Service members are required to take beginning two years prior to retiring or one year prior to separation. The TAP curriculum provides the skill building, resources and tools Service members need to achieve emotional health, physical health and economic stability in civilian life. The full-day VA Benefits and Services course, led by VA Benefits Advisors, helps Service members and their family members understand how to navigate VA and the benefits and services they have earned through their military career. VA Benefits Advisors are also available to Service members throughout their military careers through Military Life Cycle (MLC) modules, One-on-One Assistance sessions and at Installation Engagement activities. In FY2020, COVID-19 impacted worldwide in-person VA transition services. OTED developed a remote support model to keep Service members, Veterans and their loved ones in touch with VA Benefits Advisors for One-On-One Assistance sessions to preserve connectivity and keep them informed on critical VA benefits and services during these unprecedented times.

### TAP Services Offered:

- **VA Benefits and Services course:** The VA portion of TAP is a one-day, mandatory, in-person course called VA Benefits and Services, which provides an overview of important topics that range from education, compensation, insurance, health care and survivor and mental health services. This course is also available online for those unable to attend in person.
  - In FY2022, OTED supported 6,467 in-person and instructor-led virtual VA TAP Benefits and Services courses with 164,378 attendees.
  - 88,700 individuals completed the eLearning online VA Benefits and Services course through the VA Transition Online Learning at [va.org](https://va.org) (formerly the Defense Department's Joint Knowledge Online [JKO]).
- **One-on-One Assistance:** VA Benefit Advisors explain benefits, answer questions and connect Service members, Veterans and their loved ones with resources to meet their individual needs. In FY2022, OTED supported 58,356 One-On-One Assistance sessions (combination of in-person, telephone and email) with a total of 61,028 transitioning Service members, Veterans and their families. One-on-one Assistance sessions from VA Benefit Advisors are listed by region and topics discussed. A session could include one or more topics.
- **MLC modules:** MLC modules are short instructor-led and online information sessions on topics that matter most to active-duty Service members and their loved ones, such as education benefits, home loans and life insurance. MLC modules help Service members connect with VA well before transition so they can get an early understanding of their benefits and plan for their futures, which may lead to more successful transitions overall. In FY2022, OTED supported 827 in-person MLC modules with 15,145 attendees.
- **Installation Engagement:** At the request of installation commanders or other designees, VA Benefits Advisors participate in Installation Engagement events, like new arrival events, Yellow Ribbon Reintegration Program events, local resource fairs, career-preparedness activities, and spouse events to provide information on where and how to learn more about benefits, programs and services.
- **Capstone:** A mandatory event to evaluate Service member's preparedness to successfully transition from a military to a civilian career.

## TAP satisfaction:

All participants who complete the VA Benefits and Services course can provide feedback through the Transition Assistance Curriculum Participant Assessment (TACPA). TACPA is a DOD-facilitated assessment collecting demographic data, assessment of the course curriculum, materials, facilitators and facilities. Participants also answer questions to gauge their intent to use information learned during the course, whether the course added to their overall knowledge and confidence in transitioning due to the course. For all of fiscal year 2022, VA's cumulative satisfaction score was 96.9%. Satisfaction exceeded the goal of 95.0% on all 5 questions.

### Transition Assistance Curriculum Participant Assessment, FY2022

## VA Solid Start (VASS)

The first year after separation from military service poses challenges for recently separated Veterans that can make it difficult to adjust to civilian life, and for some, increase their risk for suicide. To provide added support during this critical period, VBA launched the VA Solid Start program in December 2019. Specially trained VASS representatives reach out by phone to recently separated Veterans at three key points (0 to 90, 91 to 180, and 181 to 365 days after release from active duty), to establish a relationship with VA, increase their awareness of available VA benefits and services, lower the barrier to entry into VA mental health care treatment, and support their successful transition to civilian life.

VA Solid Start conversations are not scripted and are instead driven by the specific needs of the Veteran at the time of the call. VASS representatives ask open-ended questions to identify issues or challenges the Veteran may be experiencing at the time of the call, and then direct the Veteran to the appropriate resources, benefits, and services to best meet their needs. Veterans are assigned a specific VASS representative who remains with the Veteran throughout the entire VASS program.

The VA Solid Start program has achieved great success. In FY2022, VASS successfully connected with 175,369 recently separated Veterans, representing a 64.3% successful connection rate, far exceeding the 50% goal.

### VA Solid Start Services:

- VA Solid Start addresses transition-related challenges through proactive outreach to encourage Veterans to access and use benefits as tools for success during the first year of separation.
- VA Solid Start calls all newly separated Veterans – regardless of service branch, character of discharge, or service history. This includes all active-duty Army, Air Force, Coast Guard, Navy, Marine Corps, National Oceanic and Atmospheric Administration (NOAA), Public Health Service (PHS), and Reserve and National Guard deactivated from overseas contingency deployments of at least 90 days.
- VA Solid Start prioritizes calls to Veterans who had a mental health care appointment within the last year of their active-duty service, helping to lower the barrier to accessing high quality VA mental health care treatment. In FY2022, VASS successfully connected with 29,042 priority Veterans, representing a 77.7% successful connection rate.
- VA Solid Start representatives are specially trained to identify individuals who may be in crisis or at risk for suicide during VASS conversations. When this occurs, VASS representatives complete a warm handover to the Veterans Crisis Line (VCL). In FY2022, VASS successfully connected 14 Veterans in crisis to the VCL for additional care and support.
- VA Solid Start utilizes proactive messaging via email prior to each VASS engagement to provide Veterans with information on the program, including links to resources and the VA Solid Start webpage, and to ask the Veteran to take the VASS call. The targeted messaging also includes contact information for key VA resources, such as the Veterans Crisis Line and the Veterans Benefits Administration National Contact Center, that the Veteran may need to access prior to the VASS call.
- VA Solid Start also provides Veterans with a comprehensive post-call summary via email that includes a summary of the interaction, provides additional information on the topics and benefits that were discussed, and links to pertinent information about earned benefits and services. These emails also include contact information for the appropriate State Veterans Affairs office to help the Veteran access state and/or local benefits that may be available.

## Personalized Career Planning and Guidance (Chapter 36) Benefits

Personalized Career Planning and Guidance (PCPG) is a rebranded execution of Chapter 36 now managed by OTED. PCPG provides career and education counseling to transitioning Service members within six months of leaving the military, to Veterans who have left the military within the past 12 months, or at any time to individuals eligible to use a VA education benefit. In FY2022, 8,613 Service members, Veterans, and dependents applied for Chapter 36 services.

PCPG provides Service members, Veterans and eligible dependents with career counseling, assessment, education planning and guidance resources, unique to the needs of each participant to help them set and achieve personal, career and education goals. Enhanced services made in FY2021 added increased resume support and easier access to PCPG resources.

These services are designed to provide Beneficiaries with personalized counseling and support to help guide career paths, ensure the most effective use of VA benefits, and achieve educational and career goals.

PCPG career and education counseling services include:

- Résumé support
- Education and employment planning
- Detailed skills assessment
- Personalized action plan to achieve education and career goals
- Adjustment counseling to successfully transition to civilian employment
- Connection to VA benefits and services
- Tele-counseling

Working in collaboration with Veteran Readiness and Employment (VR&E) and Education Services (EDU), OTED administers the Contract Counseling for PCPG; both VR&E and EDU will continue to be active partners in the delivery of education and career counseling, and VR&E will continue to offer PCPG benefits through VA Regional Office locations and VetSuccess on Campus (VSOC) sites.

PCPG expands Veteran outreach, increasing Veteran eligibility awareness and encouraging Veterans to use the benefit multiple times across their career lifespan as long as they remain eligible. Through a robust marketing plan in FY2023, OTED plans to expand engagement at non-VSOC colleges and universities with high numbers of student Veterans and military installations with high transitioning Service member populations.
